## Na tropie Krasnoludków

Do you want to find Dwarfs? If so, open your eyes wide. Maybe they are in your home, in some hole or under the bed. Look for them! It's best to go for a walk, maybe you'll meet them on a path, somewhere on a tree or under a leaf. Look around carefully. You must be very quiet because, Dwarfs have very good hearing and hear even the softest rustle.
